Program Highlights

- Program to deploy Microsoft 365 Copilot

- Activities and deliverables for Copilot success

- Expert guidance from Maureen Data Systems

- Explore recommendations and next steps

Ready to Optimize Microsoft 365 Copilot Deployment?

The Copilot Proof of Value is a program that helps you rapidly adopt and demonstrate value with Microsoft 365 Copilot, a powerful AI assistant that helps you create, communicate, and collaborate more effectively. Copilot can generate content, suggest ideas, provide feedback, and automate tasks across various Microsoft 365 applications, such as Word, Outlook, PowerPoint, and Teams.

The Copilot Proof of Value is designed to assist customers with rapidly evaluating Microsoft Copilot. This program focuses on proven scenarios to enable customers to see and understand the value quickly, so they have the confidence to invest in buying and adopting Microsoft Copilot.

Framework

The Copilot Proof of Value helps deploy Microsoft 365 Copilot, delivering value through four modules: Get Ready, Onboard, Deliver, and Optimize.

| Get ready ▶	Onboard & engage 🪙	Deliver impact 👤	Optimize and extend ☰
Covers pre-kick off tasks like defining scope, identifying stakeholders, and preparing assets.	Engages and trains Champions and cohorts on Copilot's value, monitoring feedback and adoption	Evaluates Copilot's business impact and offers recommendations for extending usage	Identifies opportunities to expand and optimize Copilot's usage and performance.
