Engagement Highlights

Learn how Copilot, a suite of AI solutions, can enhance your productivity and collaboration

Find high-value scenarios for Copilot across your key departments

Create a business case and a roadmap for your AI transformation with Copilot

Get a report and recommendations with next steps, risks, and owners

A Three-Phase Engagement to Accelerate Your AI Transformation

The Copilot Value Discovery is a three-phase engagement designed to help you understand the value of AI reinvention, identify top functional scenarios, build a business case and develop a strategic implementation roadmap for AI transformation powered by Microsoft 365 Copilot.

The engagement consists of the following phases:

Inspire
Showcase the Microsoft 365 Copilot vision and value by driving "Art of the Possible" style conversations and demos. Discuss AI re-invention and value of Microsoft 365 Copilot, touching on the importance of data security and adoption and change management.
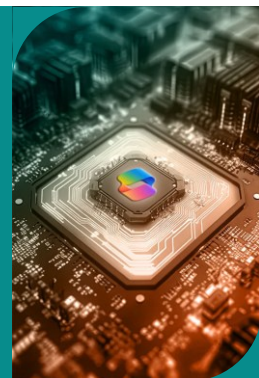

Assess
Assess your needs and AI readiness by driving technical and business/organizational readiness assessments. Facilitate C-level interviews, data analysis and workshopping to identify high-value functional scenarios across priority departments.

Design
Develop the business case and plan for implementation based on prioritized scenarios. Define next steps and timeline to develop and implement the solution.

Why You Should Attend

» Engage in discussions that highlight the potential benefits of AI in Microsoft 365

» Understand how AI can drive revenue growth and cost savings while improving employee well-being

» Develop a clear roadmap for implementing AI solutions with Microsoft 365 Copilot, tailored to your organization's needs

» Benefit from the expertise of Maureen Data Systems in AI and Copilot technologies

What to Expect

This engagement is delivered by Maureen Data Systems' business and technical consultants who will work closely with you and your stakeholders to ensure a successful outcome.

The engagement will include the following activities:

》 Optimization assessment:
Conduct a technical assessment to help identify how ready you are for adopting AI and identify a clear path to deploying Microsoft 365 Copilot.

》 Inspire sessions:
Showcase the Microsoft Copilot vision and value, deliver demos of key features and capabilities, address data security, governance, and data access questions, and discuss adoption and change management best practices.

》 Scenario analysis & prioritization:
Identify and prioritize high-value functional scenarios across your priority departments or focus groups using the Copilot Scenario Library or your own approach.

》 Business case buildout:
Build your business case, including return on investment (ROI), using the Microsoft Business Case Builder or your own approach.

》 Implementation roadmap:
Build an AI transformation roadmap with detailed recommendations and next steps to follow to effectively purchase, deploy and adopt Microsoft 365 Copilot.

》 Report and recommendations:
Deliver an executive summary with the results and outcomes of the engagement, including the business case, the implementation roadmap, and the next steps.
