Microsoft Sentinel Migrate and Modernize Engagement (SMM)

A service to help you transition to a cloud-native SIEM solution and boost your security

Engagement Highlights

- Migration to Microsoft Sentinel, a cloud-native SIEM
- Flexible service with multiple modules
- Improve security and boost productivity
- Optional analytics, archiving, and automation modules
- Suitable for organizations of all sizes
- Develop joint plans and the next steps

Ready to Transform Your Security with Microsoft Sentinel?

Are you looking for a way to simplify and accelerate your threat detection and response, while reducing complexity and cost? Do you want to leverage the power of cloud, AI, and automation to improve your security operations and protect your hybrid and multi-cloud environment? If so, you should consider migrating to Microsoft Sentinel, a cloud-native SIEM solution that provides comprehensive security analytics and threat intelligence across the enterprise.

However, migrating to a new SIEM solution can be challenging, especially if you have existing investments and processes in your current SIEM platform. That's why we offer the Microsoft Sentinel Migrate and Modernize Engagement, a MDS led service that helps you plan, execute, and optimize your migration to Microsoft Sentinel, and enables you to take full advantage of its features and capabilities.

What is SMM?

The Microsoft Sentinel Migrate and Modernize Engagement is provided by MDS, certified Microsoft partner experienced in SIEM migrations. It includes the following steps:

1 - Assessment: Evaluation of your current SIEM, security goals, and data sources, with a migration roadmap and cost-benefit analysis.

2 - Design and Implementation: Setup of Microsoft Sentinel, including data ingestion, analytics, alerting, automation, and integration with existing tools.

3 - Validation and Testing: Ensuring the solution meets security requirements and aligns with Microsoft's best practices.

4 - Knowledge Transfer and Support: Training, documentation, and ongoing support for managing Microsoft Sentinel.

Why should you attend?

- Accelerate your migration to Microsoft Sentinel with expert partner assistance.

- Maximize ROI and optimize costs with tailored pricing and data management.

- Enhance visibility with Microsoft's analytics and threat intelligence integration.

- Improve productivity with Sentinel's intuitive and collaborative tools.

- Gain ongoing support and access Microsoft Sentinel community resources.

Who should attend?

The Microsoft Sentinel Migrate and Modernize Engagement suits organizations using traditional SIEMs, hybrid, and multi-cloud environments. It leverages cloud, AI, and automation for enhanced detection and response. The service is tailored to fit specific needs, delivered by skilled Microsoft partners to ensure a successful migration to Microsoft Sentinel.
